

## FLEXMOD EXHIBIT

The **Sirius** Collection is designed for semi-privacy and in-depth conversations. The 20x20 Sirius is best suited for an island booth (open to aisles on all four sides), and offers a lockable counter and two video presentation opportunities.

The Sirius Collection contains three Satellite exhibits that function independently: one 20' Comet (requires 20' fabric graphic) and two 10' Meteors.

### Extragalactic Features of the Sirius Collection:

- Island booth
- Semi-private meeting area
- Lockable counter storage
- Four fabric graphics
- Video presentation capability
- Three Satellite exhibits: one 20' Comet and two 10' Meteors

## Satellites

Satellites orbit independently.

Comet 10' x 20'

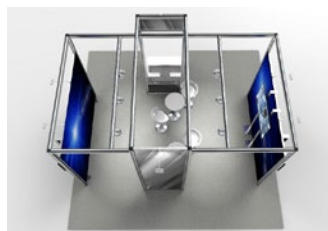

Meteor 10' x 10'

Meteor 10' x 10'

## The Sirius Collection

**Sirius:** the Dog Star, the brightest-appearing star in the heavens, located in the constellation Canis Major.
