

## FLEXMOD EXHIBIT

The **Antares** Collection is best-suited for a perimeter or peninsula booth (with a wall or booth behind it) or an inline booth and features an inviting food and beverage area. The peninsula is 12' high and the inline configuration is 8' high.

The Antares Collection contains one Satellite exhibit that functions independently: one 10' Meteor (requires 10' fabric graphic).

Cosmic features of the Antares Collection:

- Perimeter or peninsula booth
- Reconfigures to inline booth
- Lockable closet storage
- Food and beverage counter
- Video presentation capability
- One Satellite exhibit: 10' Meteor

### Satellites

Satellites orbit independently.

Meteor 10' x 10'

### The Antares Collection

**Antares:** a red supergiant star of the first magnitude in the constellation Scorpius.
